

Caring for women since 1981

For a young woman facing an unexpected pregnancy, life can seem pretty hopeless. They may have no support at home. They may not know earthly love, let alone Eternal Love. Their hope lies in the abiding love of Christ.

She needs hope. She needs help. She needs peace.

Forty years have passed since the Supreme Court's decision to legalize abortion. For forty years, people have debated when life begins. Yet, every forty minutes in the United States 103 lives are lost due to that decision. Every forty minutes 103 women lose an opportunity and gain grief.

The problem can seem too big to solve. The numbers are staggering. Thankfully, nurturing love, offered one woman, one life, at a time provides the care and options women need to choose life.
